I help people move forward.

I sit where systems meet people, and lately I build the software that meets them too.

THE RECORD

	2015	2020	Now	
2024-now				Falck Job and business consultant Casework and teaching across the whole width of the Danish employment system, from people who are ready for a job tomorrow to people who are years away from one. Outreach to the companies that might take them, and a seat on Falck's internal AI team. VITAS, Fasit, GDPR and the LAB act · Teaching job-ready and activity-ready citizens over 30 · Motivational interviewing, including the LØFT method
2024				Rødning Højskole Teacher Main-subject teacher at Denmark's oldest folk high school, in artificial intelligence, politics, human rights and project management. One semester, spring 2024
2023-2024				Jobcenter København External mentor Individual guidance for citizens the system had run out of moves for. One of them had failed the same exam more than once; he finished the degree with a 10.
2019-2022				StudieAkademiet and Mimer ApS CEO Founded StudieAkademiet, merged it with the consultant platform Mimer ApS so teaching and guidance sat in one company, and led the merged company as CEO. 50 external teachers, on courses in law, medicine, psychology and business · Mimer matched over 2,000 customers through a network of 40 consultants · Sold to Aspiri A/S in 2022
2017-2019				Jurainstituttet Head of education Ran a private legal education institution: the programmes, the teaching teams, and whether the teaching was any good. More than 30 teachers, among them supreme court judges, lawyers, doctors and psychologists
2015-2018				Infomedia and TV2 NEWS Editorial assistant Media monitoring and communication: reading the day's news down to what a client actually needed at Infomedia, and running social media and replying to the audience at TV2 NEWS.
2018-now				Hay Nako Organization Founder and chair of the board, unpaid A charity for homeless children in the Philippines. It has run underneath every job on this page.

ALONGSIDE

Hay Nako Organization gives homeless children in the Philippines somewhere safe to be: food, school, and enough play that a childhood is a childhood. I founded it and I have chaired the board ever since, through the company, the folk high school, the job centre and Falck. CVR 40636161.

LEARNING

2018

University of Copenhagen Law

Bachelor of Laws completed. Started the master's in 2018, then paused it to run the company. No plans to go back. The legal method stayed; the diploma did not.

2013-2014

Aarhus University, DPU Education science

60 ECTS where social science meets pedagogy: competence development, learning processes, and the society both happen inside.

2012-2022

NIH, Brenderup and Bosei Folk high school

Three schools and five semesters in all, the first in 2012 and the last in 2022. An important part of who I am, and the reason teaching at one later felt like coming back rather than starting.

2009-2010

Rotary International, Canada Exchange student

A year at Fredericton High School in New Brunswick, and fundraising for Rotary while I was there.

2008-2012

Vordingborg Gymnasium and HF Upper secondary, STX

English and social science line.

WHAT I CAN DO

Guidance, counselling and teaching
Motivational interviewing, including the LØFT method
Outreach to companies, and the network that follows
VITAS and Fasit, and enough IT literacy to be useful anywhere
Legislation, including GDPR and the LAB act
Shipping software by directing AI rather than writing the code

LANGUAGES

Danish and English, professional level

HOW I WORK

01 Map the system

constraints found · incentives named

02 Prototype the leverage point

rough interface · useful behaviour

03 Ship the boring version

fewer moving parts · clearer ownership

04 Tighten from reality

feedback folded in · judgment sharpened

CERTIFICATES

Project management, Microsoft, 2023
Generative AI essentials, Microsoft, 2023
